DETAILED ACTION

Priority

Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claim 23 rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Examiner cannot find support in the original disclosure for “sharing” display parameters, as recited in new claim 23.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-24 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Freeman US 6,600,421 (e.g., col. 6 line 60 – col. 8 line 32, col. 10 lines 5-28).

Claims 19 and 23 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Bufe et al. US 2001/0014769 (e.g., abstract, [0027]-[0037]).

Claims 19 and 23 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Russ US 2002/0115914 (e.g., [0012], [0022]).

Claims 19 and 23 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Ruess et al. US 6,364,834 (e.g., col. 14 line 52 – col. 15 line 10, col. 16 line 58 – col. 17 line 32, col. 18 lines 12-20).

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Soderberg et al. US 2004/0186357 discloses a diagnostic instrument workstation.

Nichols et al. US 2001/0031071 discloses user authentication in medical device systems.
